Governor Hill is one of the ablest politicians in the country, and what he does not know about practical politics would require much time and study on the part of many who have a more extended acquaintance with the subject.

A BONE OF CONTENTION.

The colored man is still a bugbear all over the country, and cases in which he is interested require all the tact and diplomacy possible in their disposition. Adjutant-General Bartlett, of the Grand Army of the Republic, at New Orleans, has resigned the win rather than sign the charter of

Commander Gray. It is red by when the black man and colored brother are interested, and the sooner these unfortunate people are provided for in Africa the better it will be for them and their white friends.

The cultivation of sugar promises to be one of the most important industries' of the country, and it is a matter of wonder that the United States is so far behind in this very important industry.
